

GBC Discovery 80

1711710

Product Description

Free-standing, heat shoe laminator with exclusive infrared heating, independent top and bottom temp controls, programmable job settings and on-the-fly adjustments. Handles up to 10mil on rolls up to 2000". A 31" production laminator designed for commercial printing or in-house production environments. It is four times faster than office laminators. The unique crowned rollers and infrared heating system provide optimum output quality even at higher speeds.

Case information

Depth	0
Width	0
Height	0
Gross weight	295lbs
UPC#	033816039667
Unit quantity	1

Features

- Exclusive memory function recalls up to nine different setups for speed and temperature
- Unique standby and power-down functions for energy savings and safety
- Independent top and bottom temperature controls for endless variety of applications
- Variable speed control/microprocessor controlled heat
