

# RSC-1651LSH

## 65" Wide Format Laminate

Built on the platform of the RSC-1651LS laminator, the RSC-1651LSH gives the added feature of a heat assist top lamination roller. The heat assist roller helps activate the adhesive of pressure sensitive laminates for a smooth clear finish and shorter laminate cure times. Combine this laminator with a wide format inkjet printer to provide endless finishing solutions.

### Key Benefits

- Easy to use digital controls on front and stylish rear remote and foot pedal for easy one person operation
- Idler bars add tension and help to eliminate wrinkling while laminating
- Wide sturdy frame construction with double cross bar supports for additional stability and durability
- Quick Notch system for gap adjustment and easy webbing
- Rear cross cutter for removing laminated documents as they exit the back
- Castors on stand make it easy to move around the shop

The RSC-1651LSH is a high quality, economically priced cold laminator with top roller heat assist specifically designed for users to easily and professionally finish wide format graphics. Built for safety and ease of use, this sturdy machine is perfect for laminating and mounting pressure-sensitive graphics up to 65" wide. It has a durable, sturdy frame construction and requires little assembly and minimal maintenance. By adding the optional Front Feed and Rear Wind-Up Assemblies, automatic roll to roll lamination is made simple. Backed by over 25 years of experience, the RSC-1651LSH is a smart option for today's sign shops.
